

Building & Grounds Meeting Highlights

Monday, March 11th

Members: Chris Caro, John Koch, Mike McNally, Bob Reinhardt, Steve Theiss, Marie Weeks, Jay Yurcik, Jim Zanella, Deacon John

The Buildings & Grounds Committee meets on the 2nd and 4th Mondays at St. Joseph's to review the state of our facilities and tasks that need to be accomplished. New members for the formal committee and/or to just pitch in are always welcomed.

- Fr. Simon joined our February 25th meeting to discuss capital projects and timelines for prioritizing projects for budget submittals.
- Major projects at the top of our list are fascia and other repairs to the rectory and changes to the St. Joseph bathrooms for ADA compliance.
- Upcoming projects were reviewed on March 11th and leads assigned to each.
- We discussed "lessons learned" from the soon-to-end (we hope) winter season. Areas to address include ensuring building heat is turned down after activities end and dealing with safe snow removal from roofs.
- The Building & Grounds Committee is looking for a donation of a working dehumidifier for use in a small section of the St. Joseph Church basement. Contact John Koch (guppy@kochny.com) if you can meet this need.

The next meeting will be held Monday, March 25 at 6:00 pm at St. Joseph's.
